EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Dutkiewicz on 9/1/2005.

The application has been amended as follows:

Claim 1 – in line 26, "with in" has been deleted and in its place –with an—has been inserted.

Claim 2 – in line 13, "component." has been deleted and in its place, --component, each handle having an upper arcuate portion with a free upper end and a lower linear component with an interior end coupled to a lateral extending end of the coupling component.—has been inserted.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a system as claimed including a coupling component, an intermediate component, a dildo and a handle having an arcuate portion and a linear component arranged as set forth in claims 1 and 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
